

## DONIPHAN COUNTY - DESIGNATED CRITICAL HABITATS

**BALD EAGLE** - *Haliaeetus leucocephalus* (Linnaeus, 1766)

Status: Threatened in Kansas  
Threatened Nationally

Currently, the following areas are designated critical for the bald eagle:

All Kansas land and waters within a corridor along the main stem of the Missouri River from the confluence of the Kansas River at Kansas City, Wyandotte County to the Kansas/Nebraska border (Sec. 5-T1S-R19E), in Doniphan County. The listed stream corridors have outermost boundaries that are along a line 100 yards landward from the stream's ordinary high water mark on each bank.

**CHESTNUT LAMPREY** - *Ichthyomyzon castaneus* (Girard, 1858)

Status: Threatened in Kansas

**FLATHEAD CHUB** - *Platygobio gracilis* (Richardson, 1836)

Status: Threatened in Kansas

**PALLID STURGEON** - *Scaphirhynchus albus* (Forbes and Richardson, 1905)

Status: Endangered in Kansas  
Endangered Nationally

**SICKLEFIN CHUB** - *Macrhybopsis meeki* (Jordan and Evermann, 1896)

Status: Endangered in Kansas  
Federal Candidate

**SILVERBAND SHINER** - *Notropis shumardi* (Girard, 1856)

Status: Threatened in Kansas

**STURGEON CHUB** - *Macrhybopsis gelida* (Girard, 1856)

Status: Threatened in Kansas  
Federal Candidate

**WESTERN SILVERY MINNOW** - *Hybognathus argyritis* (Girard, 1856)

Status: Threatened in Kansas

Currently, all reaches of the main stem Missouri River that are congruent with the Kansas-Missouri border are designated critical for the chestnut lamprey, flathead chub, pallid sturgeon, sicklefin chub, silverband shiner, sturgeon chub and western silvery minnow.
